Artists Guild Sponsors Field Trip

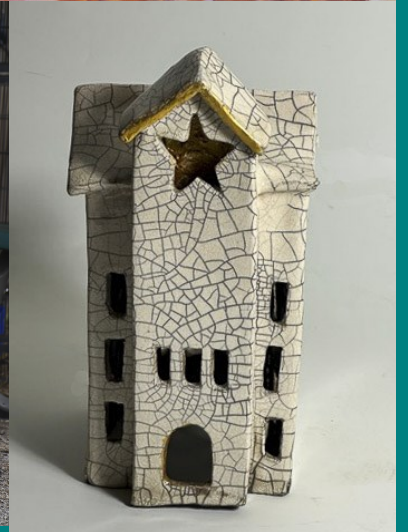

As part of our mission to **Keep Art Alive** for future generations, the Artists Guild sponsored a day long field trip for eighth grade Art Students at Haile Middle School to tour the Duncan McClellan Gallery in St. Pete. At the gallery, the students were exposed to glass art, something they had never before experienced. A glass blowing demonstration was a highlight of their tour.

During the lunch break, many students freely thanked us for sponsoring the trip. Although still so young, several students are planning to continue with a career in art. One plans on becoming a cartoonist and working for Pixar!

However rewarding this experience was for the students, seeing them so engaged was equally rewarding to us. After lunch, the Haile Art Students enjoyed a hands on glass etching workshop. You can see by the students faces at the left, how much they enjoyed this experience.

Keep Art Alive
